HWY 9 / UNIVERSITY AVENUE TRAFFIC SIGNAL & SAFETY IMPROVEMENTS PROJECT

This notice is to provide property owners and merchants adjacent to **Hwy 9 and University Avenue** with the latest information concerning the upcoming intersection improvement project. The project includes new traffic signal installation, paving, replacing sidewalk and curb and gutter, and installation of new ramps. The intersection will also be restriped with the new configuration to enhance safety and traffic flow.

The estimated construction dates are from June 16th through September 5th 2014. Working hours are from **8 AM to 5 PM.** All road and pedestrian access will be kept open as much as possible. You will be notified of any closures at least three working days in advance.

Street parking will be impacted. "No Parking" signs will be posted 72 hours prior to the actual days of work. The signs will indicate the date and times during which parking is prohibited. **ANY CARS PARKED WITHIN THE POSTED AREA ON THESE DAYS WILL BE TOWED.** When the work has been completed in each area, the parking prohibition will end and all signs will be removed. There will be flagmen and other workers directing traffic to ensure the safe passage of all citizens and for the safety of our workers. Expect some delays, and choose alternate routes, if possible. Emergency vehicle access will be accommodated at all times.

Should there be delays due to weather or other unforeseen circumstances, a revised notice will be sent out with the updated dates of work and signs will be updated to reflect these changes.

The Town of Los Gatos Engineering Inspector will be on site for the project in addition to the Contractor (Graniterock Company). If there are any questions or concerns, please contact Town of Los Gatos Engineering Department at (408) 395-3430 or Graniterock at (408) 639-7841. We would like to apologize for any inconvenience that this work may cause and look forward to the successful completion of this project to enhance the quality of streets in downtown area.
